Number of surveys returned	29	41	40
Percent satisfied with learning environment	100%	97.6%	92.5%
Percent satisfied with social and physical environment	100%	100%	92.5%
Percent satisfied with school-home relations	96.5%	95.2%	95%

*Only students at the highest elementary school grade level at this school and their parents were included.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Sampit Elementary School is home to a population of about 350 students in grades Pre-K through fifth. It is a small rural community school. We are extremely proud of our students, our parents, our community, our faculty and staff, and our beautiful campus. We are dedicated to providing a safe, welcoming, and supportive learning environment with high expectations. Staff members at Sampit Elementary seek to create a culture of learning with a comprehensive curriculum that encourages students to strive for excellence at every developmental level and to evolve into self-motivated learners. Educational and emotional needs of the students are met through small class sizes, a comprehensive reading program, innovative approaches to mathematics education, cross curricular connections, and scheduling that allows for the continued professional development of the staff. Our balanced literacy program engages our students in meaningful whole class, small group, and personal reading and writing experiences. Through modeling, coaching, and discussion, students are equipped with a wealth of strategies to develop their reading fluency and comprehension. All students are immersed in rich literature available at the individual student's developmental level through the 100 Book Challenge Reading Program. Students in K-5 are encouraged to read independently in order to meet personal reading goals. Strong unit planning strategically integrates both social studies and science with the students' literature study. Opportunities for students' continued growth and development are provided through technology, music, art, and physical education. The mathematics curriculum provides the students with concrete, tactile learning in math instruction. The Everyday Math Program furnishes the students with an array of manipulatives and tools which they use to solve problems based on real life situations. The spiraling curriculum uses games for continued practice so that the children can begin to apply what they learn during investigations and explorations. The level of instruction is highly challenging and encourages cooperative learning experiences. Students with needs in reading and math receive intensive small group instruction. In addition, tutoring is provided during school and after school. Our teachers engage in the Professional Teaching and Learning Cycle (PTLC) process to enhance instruction. Teachers collaborate in grade level and cross grade level sessions to plan meaningful standards based lessons and assessments. Academic success is a top priority for all of our students. We realize the powerful potential for improving student performance when the home, school, and community join forces for the good of our children. The school provides many opportunities for parents to be actively involved. Parents are invited to attend student activities, participate in curriculum workshops, and volunteer in various capacities. We believe in providing parents with resources to help their children learn at home. We welcome their involvement as they join us as partners in education. Sampit strives to create a vibrant learning environment where students are academically charged and become lifelong learners. As our motto states, Sampit is "Building a Pathway to Success!"
